**9. Motion Peter West**

"Kingstonian Supporters Club is disappointed that the Isthmian League has chosen to accept sponsorship and naming-rights to its competition from an on-line betting company and, in view of the mental suffering and poverty that such betting can cause, urges the league to re-consider its decision by withdrawing from the sponsorship arrangement at the earliest possible opportunity".

I appreciate that the Football Club, as opposed to the Supporters Club, is similarly unhappy with the sponsorship arrangements ... Probably there is little that the Football Club can do, but the Supporters Club, being independent of it, could register its disapproval of the league's decision if a motion such as the one I propose is passed by the Annual General Meeting.
